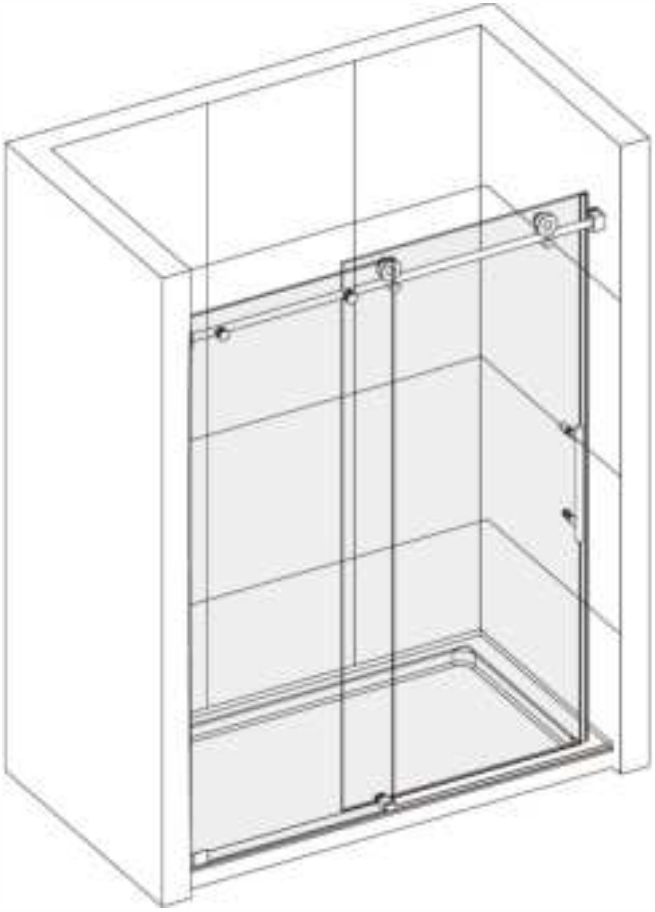
INSTRUCTION MANUAL



2 PEOPLE REQUIRED

Please keep this manual and the product code number for future reference and to order replacement parts if necessary

GENERAL INSTRUCTIONS

- Please read this manual carefully and thoroughly before proceeding.
- For your safety, it is recommended that you wear safety glasses at all times during installation.

INSTALLATION OVER CERAMIC TILES

- If you are installing the shower door over ceramic tiles, make sure that the tiles lay completely under the wall jamb.
- Use silicone to seal the gaps where the ceramic tiles meet the fixed panel.

NOTICE

- Caulking is not required inside the shower, unless otherwise stated.
- Some models are equipped with clear sealing gaskets.

CARE FOR YOUR SHOWER DOOR

- Do not use scouring powder pads or sharp instruments on metal pieces or glass panels.
- To keep the panels and metal parts looking new, occasionally wipe them down with a mild soap diluted in water.
- We recommend wiping the glass panels with a squeegee after each use.
